

FDB-X1 Flexible CNC Drill, Point & Broach M/c

Custom-designed for

- Drilling, Pointing, Facing and Broaching of aerospace fasteners
- Designed for smaller batches / lots in difficult materials
- A precise, flexible, reliable machine specially designed for the job
- 150 - 300 parts per hour depending on size and operations
- Fast changeover
- Safe, clean working and easy maintenance
- Typically 1 operator can run and set 3 or more machines
- Machines can be customised to suit your requirements

Capacity

- Grip \varnothing : 1/8" – 12/32" (3 mm – 10 mm)
- Grip Length: 4/16" – 32/16" (6 mm – 50 mm)
- Machines can be customized to other sizes

Features

- 18" dia (450 mm) Vibratory Bowl Feeder
- Up to 12 tools e.g
 1. Load
 2. Centre Drill or Point & Face
 3. Drill
 4. Broach Hex
 5. Remove 'Petals'
 6. Unload
- Rotating spindles have independent variable speed up to 3000 rpm
- Quick-change pre-settable tooling
